In 2022, the FIFA World Cup made history as it took place in the Middle East for the first time. The nation of Qatar hosted this global tournament and delivered a competition unlike any other. With seven state-of-the-art stadiums, the event aimed to showcase Qatar's blend of tradition and innovation. Two stadiums in particular stand out. Firstly, the Al Bayt Stadium looks like traditional Bedouin tents. And, secondly, the stunning Lusail Iconic Stadium, the scene of the final. As the first World Cup organised in November and December, rather than in the traditional summer months, Qatar 2022 promised a unique experience for both players and fans. The cooler temperatures helped teams that normally struggle when the World Cup takes place in hot climates. In addition, the nature of Qatar's diverse population with people from around the world provided a rich cultural experience. The organisers encouraged fans and players to experience the famous hospitality of people in the region. One particular place the organisers drew attention to was the busy Souq Waqif market. Here visitors had the opportunity to immerse themselves in the sights, sounds and flavours that make Qatar so special. Qatar also committed itself to leaving a lasting legacy.
